

SHAC Presentation 110220

Meeting 1

Slide 1: Good morning SHAC members! Thank you for attending this first meeting of the 2020-2021 School Health Advisory Council, or more widely known as the SHAC!. My name is Dr. Al Hemmle, I work in Student Services, and I have the honor of chairing this committee. I would also like to introduce to you Mrs. Nikki Nix, who is our Director of Secondary Learning, Mrs. Becky Wiginton, our Director of Counseling, Guidance, and College Readiness, and Melissa Goldwaithe, our elementary SEL Counselors. These folks help me in their respective areas to guide the SHAC activities

Slide 2: Our agenda today is to welcome everyone to the committee, present a very brief overview of the purpose of the SHAC, share with members our AIM FOR SUCCESS programs and presentations that will begin in the month of November, and spend the bulk of our time this morning reviewing the parent and community resources related to the SHAC. The SHAC has in-part, been responsible for the development of these resources for our students, staff, and parents. Lastly today, we will give members the opportunity to recommend a parent/co-chair for the SHAC.

Slide 3: The SHAC is mainly composed of parents of students in the district, it is also made up of school folks...school nurses, school safety personnel, district staff, students, a representative from Reach Council, and an MISD board representative.

Slide 8: At this point in the presentation, I will defer to my colleague Mrs. Becky Wiginton to talk to you all about the resources that we have assembled on our school district website to help provide resources for our students and parents.

Back to Slide 2 for nomination of Co-Chair for SHAC

SHAC Meeting Minutes 12/14/20

1. Dr. Hemmle welcomed the committee members and announced that Joy Parker was nominated as the parent representative for the 20-21 SHAC. He contacted her on Friday and will reach out again this week to see if she will accept.
2. Dr. Hemmle reviewed the 2 agenda items: Review AIM For Success program and the 20-21 Wellness Plan Evaluation.
3. AIM for Success - Dr. Hemmle showed the grade levels and topics of curriculum presented by AIM for Success. In subsequent meetings, SHAC will invite the rep from AIM to provide an overview of each program to the committee members
4. Wellness Plan - Dr. Hemmle reviewed the Wellness Plane evaluation that needs to be conducted this year. CATCH committees on campus will do their own campus review and then SHAC will collect that data.
5. Dr. Hemmle asked if anyone had any questions or comments. No questions asked. He announced that we will meet prior to the March scheduled meeting as soon as he hears back from the rep from AIM and her availability.
6. Meeting adjourned at 8:30.

102819 SHAC Meeting Notes

Take Aways-

- Look a survey data from spring
- Parental awareness in general- what does it look like, what are some things that good parental awareness programs includes
- Look at the schedule of current school events that are already scheduled that we can piggyback on
- Could we do Parent U in Fall and one in Spring?

To do for members:

Research parental awareness programs

What are the pieces of an effective parental awareness program?

Introductions of members in attendance

Summary of SHAC-

Committee Members

Expectations

Meeting Dates

Historical impact

Topics our students are dealing with:

Vaping

Opioid Use

Student Behavior related to Substance Abuse/Mental Health/ Suicide Ideation

Bullying and Cyberbullying

Common Thread- parental awareness, how do we educate parents?

Parent portal? With linked resources?

Parent U?

Newsletter pieces

Parental Awareness vs Parental Willingness

Pull data of where parents are coming and provide information at those events.

Do you have data from either the surveys' from parents on perspective and feedback? Do we have data and metrics to create goals and metrics? Appreciate our topics, but if we have data it would be more beneficial.

Data to pull- from surveys, students and parents
Pull data on areas we see need address from student incidents

Senate bill 11, very invested in that , TCHAT?
HB496- Stop the Bleed
More for school safety- already have training scheduled
YMHFA training for more staff in 2020

Is there a way to do a SHAC notification- in MISD Connect campus newsletter with health tip
monthly or every 2 weeks, quick and to the point in an email

Is there a quick bullet point list that we couple put out for different things- depression, drug use,
etc. for parents to use.

Online assessment? Is there something we could offer as an online assessment?

120919 SHAC Meeting Notes

- Review of Oct meeting notes
- Review of data from principals, surveys, PowerSchool
- Add parental awareness on how to monitor phones, social media sites, etc.?
- Shared Community Resource Guide
